FUTURE FARMERS OF AMERICA

The state unit includes all Chapters in the state, under the supervision of the State Department of Education as represented by

the bureau of Agriculture Education, with its headquarters at the State Education Building, Sacramento, California. The national unit is the U.S. office of Health Education and Welfare, Washington, D.C. Every Future Farmer project in Livestock, Poultry, Fruit or Crops is a part of the practical education of the vocational agriculture student who owns it. The program includes the improvement of agriculture leading ultimately to the ownership of the farms and the development of good rural citizenship. Participation in Fairs and livestock shows is recognized as having educational value as well as stimulation for better results and finer projects, under the supervision of the qualified Chapter advisor and with the cooperation of the Fair Management.
